“Preparing Raw Food Meals with a Gourmet Chef”

1:30-2:30 Al Shay/ DeSantis Landscapes  
“Sustainable Horticulture in the Home Landscape”

2:45-3:45

### **OAN Room:**

10:30-11:30 Peter Donaldson  
“The Big Map Story of Salmon Nation”

If salmon are the indicator species, what are they indicating? Master storyteller and curriculum designer Peter Donaldson uses big maps and big ideas to track the interdependence of salmon and people in the history and future of our bioregion. From ice age to climate change, salmon have been talking as loudly as they can, except they can't talk. It's up to the human family to find a way to listen. Informative and rapid-fire-playful, Peter's presentation reaches all ages.

11:45-12:45 Christopher Dymond/ OR Department of Energy  
“Solar Energy Workshop”

1:00-2:00 Oregon Raptor Center  
“A Close-Up Look at Birds of Prey” (with live birds)

2:15-3:15 Peter Donaldson  
“The Big Map Story of Salmon Nation”
