Date of NB entry:

Name of project:

Using Reclaimed Water to Create a Botanical Garden.
(The exact title will probably change in the near future.)

Organization(s) in charge of project: University of Idaho Senior Thesis Project

Contact person: Lindsey Utter

Address: PO Box 3038 Moscow ID 83843
Phone: 208-885-7026 202-818-2219(Cell)
Email: hockeygirl@cheerful.com

Dates of project: Spring Semester, 2004

Location of project: Case Study: Oregon Garden; Silverton, Oregon
Application Site: Water Treatment Plant; Moscow, Idaho

Brief description of project:

Researching the use of reclaimed water to create a botanical garden. Document the process and steps involved and then apply this information to another real world site, such as Moscow, Idaho's water treatment facility.

Type of research (baseline data; hypothesis testing; field trial; case study; etc.):

case study

Funding source(s): none
